Electrical DC power	Yes	Installed LPG system	Yes
Electrical AC power	Yes	LPG Test method: (B=Bubble tester M=manometer NT=Not Tested)	M
		If NT, this is why :	

Overview of what fuels & systems were seen by the examiner

examined by the BSS Examiner above against the category of checks relevant to the class of vessel indicated above. The BSS Examination is a way of verifying that your boat meets your navigation or harbour authority's minimum safety requirements. The requirements help reduce the risks of fire starting & spreading, explosions, pollution and carbon monoxide poisoning. Visit boatsafetyscheme.org for more information.

BSS Certificate

This shows that a BSS Certificate has been issued

Did the boat meet all the applicable minimum safety requirements? –

A BSS Certificate will also be issued to privately-owned & managed boats if advice checks fail

Yes

You will need to renew the boat's certificate by this date

If yes, the expiry date is: **08 May 2016**

Was a warning notice issued? **No** Was the examination terminated? **No**
 See examiner's comments for details, if 'Yes' is the answer in either field.

The full details of any checks that have not passed and why, are given in the examiner's comments section which is attached if relevant. Any check item that is marked with an 'R' (Required) must be addressed in order for the boat to pass

If a pass is reported, this document can be considered a receipt-style certificate. However, it is the entry of this information on the central BSS database, and not this examination report, that will be used by your boat licensing authority to confirm that your boat has passed its BSS examination.

A BSS examination is NOT a full condition survey of a vessel - to understand the scope of a BSS Examination and the nature of the Examination Report, please read the information attached or online at boatsafetyscheme.org.
